

## Change of Gas spring Model

We are pleased to inform you that we have changed the below mentioned model of Pascal gas spring. When you place an order, please refer to the description shown below.

- **Details of Change** We have created a new model # **DNK** in place of **DNT** and **DNTG**. **DNT** and **DNTG** outline dimensions are same except the size of gas charging port, and therefore these two models have been consolidated into the model **DNK** then gas port is changed from SAE to BSPP (G1/8).

● **Model No. & Dimensions**

old Model	Gas port Size	old Model	Gas port Size	new Model	Gas port Size	Drawing of the outside view
DNT0350	M6			DNK0350	M6	
DNT0500				DNK0500		
DNT0750		DNTG0750		DNK0750		
DNT1000		DNTG1000		DNK1000		
DNT1500		DNTG1500		DNK1500		
DNT2400	SAE#4 (7/16-20UNF)		BSPP (G1/8)	DNK2400	BSPP (G1/8)	
DNT4200		DNTG2400		DNK4200		
DNT6600		DNTG6600		DNK6600		
DNT9500		DNTG9500		DNK9500		

- SAE#4 : A pipe thread unified by SAE standards, which is mainly used in automotive industry in North America.
- BSPP(G1/8) : A pipe thread unified by ISO or JIS standard, which is mainly used in Japan and Europe, even in North America in a last few years.

● **Ordering**

For self-contained use	all Models	Please issue a po with new model #
For charging type	DNT0350 DNT0500 DNTG	Please issue a po with new model #
	DNT0750 DNT1000 DNT1500 DNT2400 DNT4200 DNT6600 DNT9500	In case of a new die project, be sure to order <b>BSPP(G1/8) hose adapter</b> along with gas spring.  When issuing a PO for replacement or after market purpose, please inform us of the type or model # of the adapter equipped with gas spring. New adapter to fit into the port of new model is prepared at no additional cost.

- **Time of implement of the Change** The change will be effective from the PO coming on May 2010. Please allow us for the mixture of the new and old model during transition period. (Only for the case that gas springs are used stand alone. Not piping application)
