# Pascal mag ejector rod

It is a newly designed Ejector Rod with strong magnets on the joint surface of the fixed/removable rods, which plugs in/out by one-touch operation.

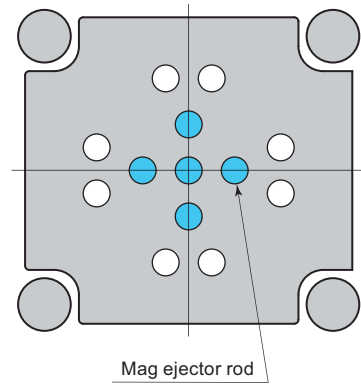

# How comfortable in the field we are! Excellent down time improvement!

- Stop the machine after the ejector plate forwards in end.

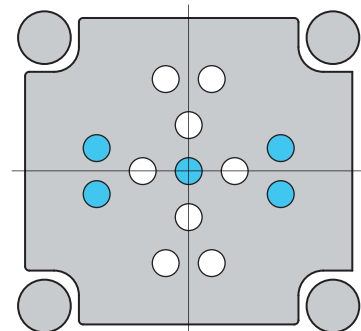

Example

- Plug out the removable rod by one-touch operation.

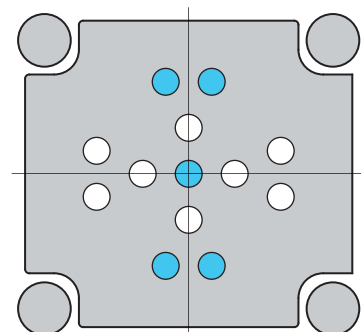

Quick change

- Plug in the removable rod by one-touch operation.

Quick change
